Project Description

This project involved the reconstruction and expansion of Zion Triangle at the intersection of Pitkin and East New York Avenues and bordered by Legion Street in the Brownsville area of Brooklyn. There were several technical issues and complexities associated with this project. The proposed work included curb and sidewalk reconstruction, street lighting improvements, a new water fountain, bioswale work, landscaping, pavement restoration, signage and striping. It also included the restoration of the Zion Park War Memorial.

Competitive Advantages

KAG Engineering, PLLC [KAGE] provided an Office Engineer that was responsible for all office duties on the construction project. These duties included coordinating project meetings, ensuring that the project remained on schedule and budget, organizing project files, managing the payment information management system, and submitting the Contractor's payments.

KAGE also provided a Community Construction Liaison that was responsible for the coordination between the project and the community. This included the community boards, garden associations and the general public.

Project Duration

February 2018 through February 2020
